

Job Description: Junior Software Developer (Full-Time, Office Based, Athlone Town Centre)

Position: Junior Software Developer

Salary: €30,000

About the Role

We are looking for a motivated and enthusiastic Junior Software Developer to join our growing team at Incorpro on a full-time remote basis. In this role, you will be an integral part of the development team working on Incorpro's internally developed software solutions, contributing to the automation of accounting and tax processes. This position is ideal for someone with limited professional experience, offering the opportunity to gain experience your skills in a dynamic, technology-driven environment.

Key Responsibilities

- Contribute to the development, testing, and maintenance of Incorpro's internally developed software solutions, focused on automating accounting and tax processes.
 - Collaborate closely with senior developers to implement new features and improve the functionality of existing software.
 - Troubleshoot and resolve software issues and bugs to ensure smooth operation of the software.
 - Participate in code reviews and help maintain coding standards and best practices.
 - Collaborate with cross-functional teams to understand business needs and translate them into technical solutions.
 - Stay up to date with emerging technologies and trends in software development to continually improve your skills and knowledge.
-

Key Requirements

- A strong willingness to learn and develop new skills in a fast-paced, technology-driven environment.
- Proficiency in a modern programming language such as Python, Java, or similar.
- Familiarity with web development frameworks and tools (e.g., Django, Flask, Next.js) is a plus.
- Strong problem-solving skills and the ability to troubleshoot and debug code.
- Excellent communication skills and the ability to collaborate effectively with a remote team.
- Ability to work independently and manage tasks effectively in a remote setting.

Join our innovative and growing team at Incorpro, where you will play a key role in the development of our software solutions. This remote role offers exciting potential for professional growth and skill development in the software development field.

We encourage you to apply even if you do not meet 100% of the requirements. We value potential and a willingness to learn just as much as existing skills and experience.
